

DEVOTION: September 10

Ground Zero **DR. CLARENCE E. HACKETT**

A miracle took place at St. Paul's Chapel, built in 1766, one block from the World Trade Towers. The chapel is the oldest church in Manhattan and began ministering as a place of rest, food and health care after the terrorist attack on the World Trade Towers.

Although dozens of buildings were destroyed, there was not a broken window in St. Paul's Chapel. It became known as the "Little Chapel That Stood." What an astounding miracle!

The chapel was apparently spared to care for those who were injured, wounded, and also the "finest and bravest" of New York City. George Washington prayed there after the first inauguration. Many shocked believers prayed in St. Paul's Chapel to gather their thoughts and affirm their faith in God.

God is indeed a God of miracles. *For with God nothing shall be impossible* (Luke 1:37). Nothing is impossible, so anything is possible with God. God shows up in remarkable ways. These divine appointments reveal God's power. He gets all the glory!

Praise God that He continues to make the impossible *possible*! With God's power and blessings, you can tithe! With God's grace and gratitude, you can become a generous giver of your time, spiritual gifts, and financial resources.
